Office Visit Copay

With an office visit copay, you have the convenience of knowing what you'll spend when you visit a network doctor. Your copay is your only cost for four eligible network office visits per person each year, including immunizations and allergy shots.

Accident Medical Expense *(Rider 4014)*

This benefit pays first in the event of an injury—before you pay any copay, access fee, deductible or coinsurance. You select the benefit amount: \$300, \$500 or \$1,000.

Dental/Vision Discount Card

Adding this discount card gives you access to dental and eyewear providers from a nationwide network—and as much as 50% in savings whenever you use their services.

Maternity Benefit

This benefit pays 100% of covered services after you meet your maternity deductible—for any pregnancy that begins after the 9-month benefit waiting period. Maternity deductible options are \$1,000, \$2,500, \$5,000 and \$10,000.

If you select a lower deductible, you'll get more in paid benefits—meaning you'll pay fewer bills out of your pocket. Or, choose a high deductible and still get access to significant network discounts. The high deductible option pays for itself with the savings on doctor and hospital bills.

Optional features are available at an additional cost. Discount programs are not insurance. Additional provisions may apply. See page 7 for details.

Plan Provisions

State Variations

Plan design, benefits, optional features, provisions, definitions and exclusions may vary by state. See the quote summary or the proposal for available optional features. Refer to the State Variations sheet for state-specific benefits, provisions and exclusions.

Network Services

A PPO network plan gives you the most value for your health care dollar. When you use network providers, covered charges are discounted and never exceed the maximum allowable amount. That means savings for you, and no worries about being billed for additional charges. Network services are subject to a determination of medical necessity and deductible and coinsurance, unless otherwise noted.

Maximum Allowable Amount

Charges for covered services performed by non-network providers are subject to the maximum allowable amount. Non-network providers may bill more than this amount, and you are responsible for any balance due to the provider.

Non-network Services*

Emergencies:

Covered services are always paid at the network benefit percentage—even if you are out of network—subject to a determination of medical necessity, the deductible and the maximum allowable amount.

Non-emergencies:

Covered services are subject to a determination of medical necessity, the non-network deductible, a benefit percentage reduction, the increased non-network coinsurance maximum, and the maximum allowable amount provision.

Individual non-network deductible is the individual deductible plus \$1,000.

Family non-network deductible is two times the individual non-network deductible and is met collectively by two or more persons.

Non-network benefit percentage is the selected benefit percentage less 20 percentage points.

Non-network coinsurance out-of-pocket maximum is \$10,000/person - \$20,000/family.

**In Georgia and Montana, please see the State Variations for non-network provisions.*

Utilization Review

Authorization is required before inpatient treatment and certain types of outpatient procedures. Unauthorized services will result in a penalty of 25% of the charge (up to \$1,000). Unauthorized transplants are not covered.

Benefit Waiting Periods on Certain Treatment

Benefits for certain types of treatment are payable after the benefit waiting period listed here:

- Surgical treatment of tonsils/adenoids—3 months
- Surgical treatment of bunions, hemorrhoids, inguinal hernia (except strangulated or incarcerated), varicose veins—6 months
- Sterilization—12 months

Benefit waiting periods are waived when this plan is replacing other similar in-force coverage.

Pre-existing Conditions

A pre-existing condition is an illness or injury and related complications for which, during the 12-month period immediately prior to the effective date of your health insurance coverage: 1) you sought, received or were recommended medical advice, consultation, diagnosis, care or treatment, 2) prescription drugs were prescribed, 3) symptoms were produced, or 4) diagnosis was possible. No benefits are paid for charges incurred due to a pre-existing condition until you have been continuously insured under the plan for 12 months. This 12-month limitation does not apply to health conditions that, at the time of underwriting, receive a rating load or are included in a condition-specific deductible, or to routine prescription drugs if their use is disclosed on the application. After the 12-month period, benefits are paid for a pre-existing condition, unless the condition is specifically excluded from coverage.

SuiteSolutions (optional feature)

Accident Medical Expense benefits are reduced by benefits payable under any other insurance plan. Critical Illness Expense benefits are not available with child-only plans.

Office Visit Copay (optional feature)

A copay is your only cost for four eligible network office visits per person each year, including immunizations and allergy shots. The following services, if otherwise covered, are subject to deductible and coinsurance, but are not eligible for benefits under the office visit copay: office visits with non-participating providers, surgical procedures, allergy testing, imaging or laboratory services and maternity-related visits.

Dental/Vision Discount Card (optional feature)

The Dental/Vision Discount Card is a discount program. It does not provide insurance coverage.

Maternity Benefit (optional feature)

The maternity deductible does not apply to the plan deductible. Prescription drugs are covered under the plan prescription drug benefit. Facility fees do not apply. If conception occurs during the first 9 months of coverage, routine maternity charges will be excluded.
