Your major medical plan could leave you responsible for as much as \$6,350¹ in out-of-pocket expenses in the case of a serious accident or illness. Metal Gap offers options to complement your health plan in the event of a covered illness or accident.

Accident and critical illness benefits allow you to focus on your number one priority: getting better. Metal Gap provides benefits for covered accidents up to the selected maximum amount, minus the deductible, or the actual expense you incur, whichever is less. It provides a lump sum payment that is sent directly to you and can be used for anything you choose, including:

- Out-of-pocket expenses
- Prescriptions
- Experimental procedures
- Living expenses
- Lost wages

Life insurance can provide financial protection for your family, should the worst happen to you. But what if a serious accident or illness leaves you unable to work and unable to pay your medical bills?

Critical illnesses and serious accidents are frightening enough before they leave you with the financial fallout of reaching your deductible or the cost of medical treatments your major medical policy doesn't cover.

¹ Based on 2015 maximum out-of-pocket allowable on an ACA-compliant plan.

²Critical Illness coverage only applies to the primary insured and their spouse, if also a covered person.

³This is a membership benefit and not an insurance benefit.

Covered Critical Illnesses include: life-threatening cancer, heart attack, kidney failure, stroke, coma, coronary artery bypass, loss of sight, speech or hearing, major organ transplant, paralysis and severe burn. The percentage of the benefit paid varies based on the illness diagnosed. Critical illnesses diagnosed in the first 30 days of coverage will have the lesser of a \$500 benefit or 10 percent of the amount that it would have paid for the condition if first diagnosed more than 30 days after the insured person's effective date. Refer to the Certificate of Insurance for complete definitions and diagnostic requirements of each covered critical illness. The amount payable will be reduced by 50 percent if the insured person is age 65 or older on the date a benefit becomes payable.

Accident and critical illness coverage terminates at age 70. Hospital Confinement coverage terminates at age 65.

Important Information

Pre-Existing Conditions

Benefits for inpatient hospital confinement and Critical Illness coverage are subject to the pre-existing condition limitation. A pre-existing condition is a disease, accidental bodily injury, illness or physical condition for which a covered person had treatment, incurred a charge, took medication or received a diagnosis or advice from a doctor during the 12-month period immediately preceding the covered person's coverage effective date. Benefits are payable for a pre-existing condition after the person has been covered under the policy for 12 consecutive months. For the hospital confinement benefit, this does not apply to a newborn or newly adopted child placed for adoption under age 18 if such child is enrolled for coverage within 31 days from the date of birth or date of adoption or placement for adoption.
